Royal Taste of Rajasthan

ABOUT THE COMPANY

The journey of MJ Rajasthani Namkeen has always been powered by the collective spirit of our team and our incredible partners.

We started in 2016, inspired by the rich, authentic flavours of Rajasthan. Our vision was simple yet profound: to bring the Royal Taste of Rajasthan to every corner of India and the world. Since then, we have perfected the art of snacking, ensuring every product-from our world-class namkeens and sweets to our crispy papads-delivers the ideal blend of unforgettable taste, health-consciousness, and everyday affordability.

We know the path to a person's heart is often through their stomach, and we are proud to have earned the love and trust of our customers.

But our purpose is far greater than just selling snacks. Our long-sighted vision is to spark widespread inclusive growth by fostering an ecosystem that will empower 10,000 new entrepreneurs. We are spearheading this initiative by offering hands-on support, training, and strategic market linkages to help small and medium-scale businesses and startups successfully scale.

By adopting this collaborative approach, we are strategically pushing ahead, successfully expanding across new markets and deepening our reach across all trade channels. We are absolutely confident that by growing together, we can realise our vision where everyone succeeds.

Thank you for being a part of the MJ Rajasthani Namkeen story. Your support is our foundation.

Vision
